## HEALTH FORM

Your child is required to have a current Health Form on file before starting school. The form must be completed, signed and dated by a doctor who has seen your child within the last 12 months. Subsequent statements are due at the start of each school year. A copy of your physician's own Health Form is acceptable as long as it includes the information asked for here and indicates whether or not sunscreen can be applied at school.

**Health Care Professionals: Please write legibly and refrain from using medical jargon and abbreviations with which the lay person would be unfamiliar. Thanks!**
